Comprehensive Immigration Reform NOW

Join the fight for Comprehensive Immigration Reform!

Because men, women and children are dying along the U.S. border in an effort to pursue a better life;

Because women and men, native born and immigrant, continue to work under horrible conditions for low wages and no benefits;

Because high school graduates are unable to pursue higher education because of their immigration status;

Because families are being torn apart due to visa backlogs, arrests and deportations.

Gamaliel Foundation Religious Leaders Event

June 19th March to the White House, a Call for Action and Prayer.

All Gamaliel Religious Leaders are called to Washington DC to participate
in a National Day of Prayer and Action
for the passage of Comprehensive Immigration Reform.

The Strive Act is movement forward but needs the following improvements:

- **Accelerate the Process, Drop the Trigger to Implementation** – How many years will pass until vulnerable immigrants can become full participants in American society?
- **Reduce the Fees** – Added up, the cost for households may make legal residency unreachable for too many struggling immigrant families.
- **Punt “Touch Back”** – While soft in comparison to past proposals, this is still an unnecessary and arbitrarily imposed burden for too many long term residents of our communities.
- **Job Training** – Any comprehensive immigration reform must also create new opportunities and strengthen worker and anti-discrimination rights for all workers.
- **Protect Public Safety** – Any blurring of the line between the role of federal immigration enforcement and local law enforcement is unacceptable.
- **New Worker Portability** – Provisions of the New Worker program may inadvertently weaken the principle of job portability.
- **Reject Criminalizing Immigrants** – Reform aggravated felony definitions and unfair laws that put immigrants at risk of detention, raids and family separation.
- **Judicial Discretion and Review** – Create judicial waivers that allow judges to weigh circumstances in individual cases and restore fair access to courts.
- **Preserve the DREAM Act** – DREAM Youth should not need to wait excessively long periods of time to become full participants in our society.
- **Social Security** – The STRIVE Act lacks a provision to ensure confidentiality in the use of identification numbers or protection from future prosecution.
